

# THE SLUM BY FU TEI ESTATE

## LAM TEI #5

The rich-poor divide is brought into stark relief in this report. Public housing estates are desirable compared to the slums that subsist in their shadow, left behind by modernization.

This ghetto houses seven refugees manipulated by ISS-HK and exploited by a Pakistani resident who claims to be 'doing them a favor'. Isn't that the excuse criminals give their underlings?

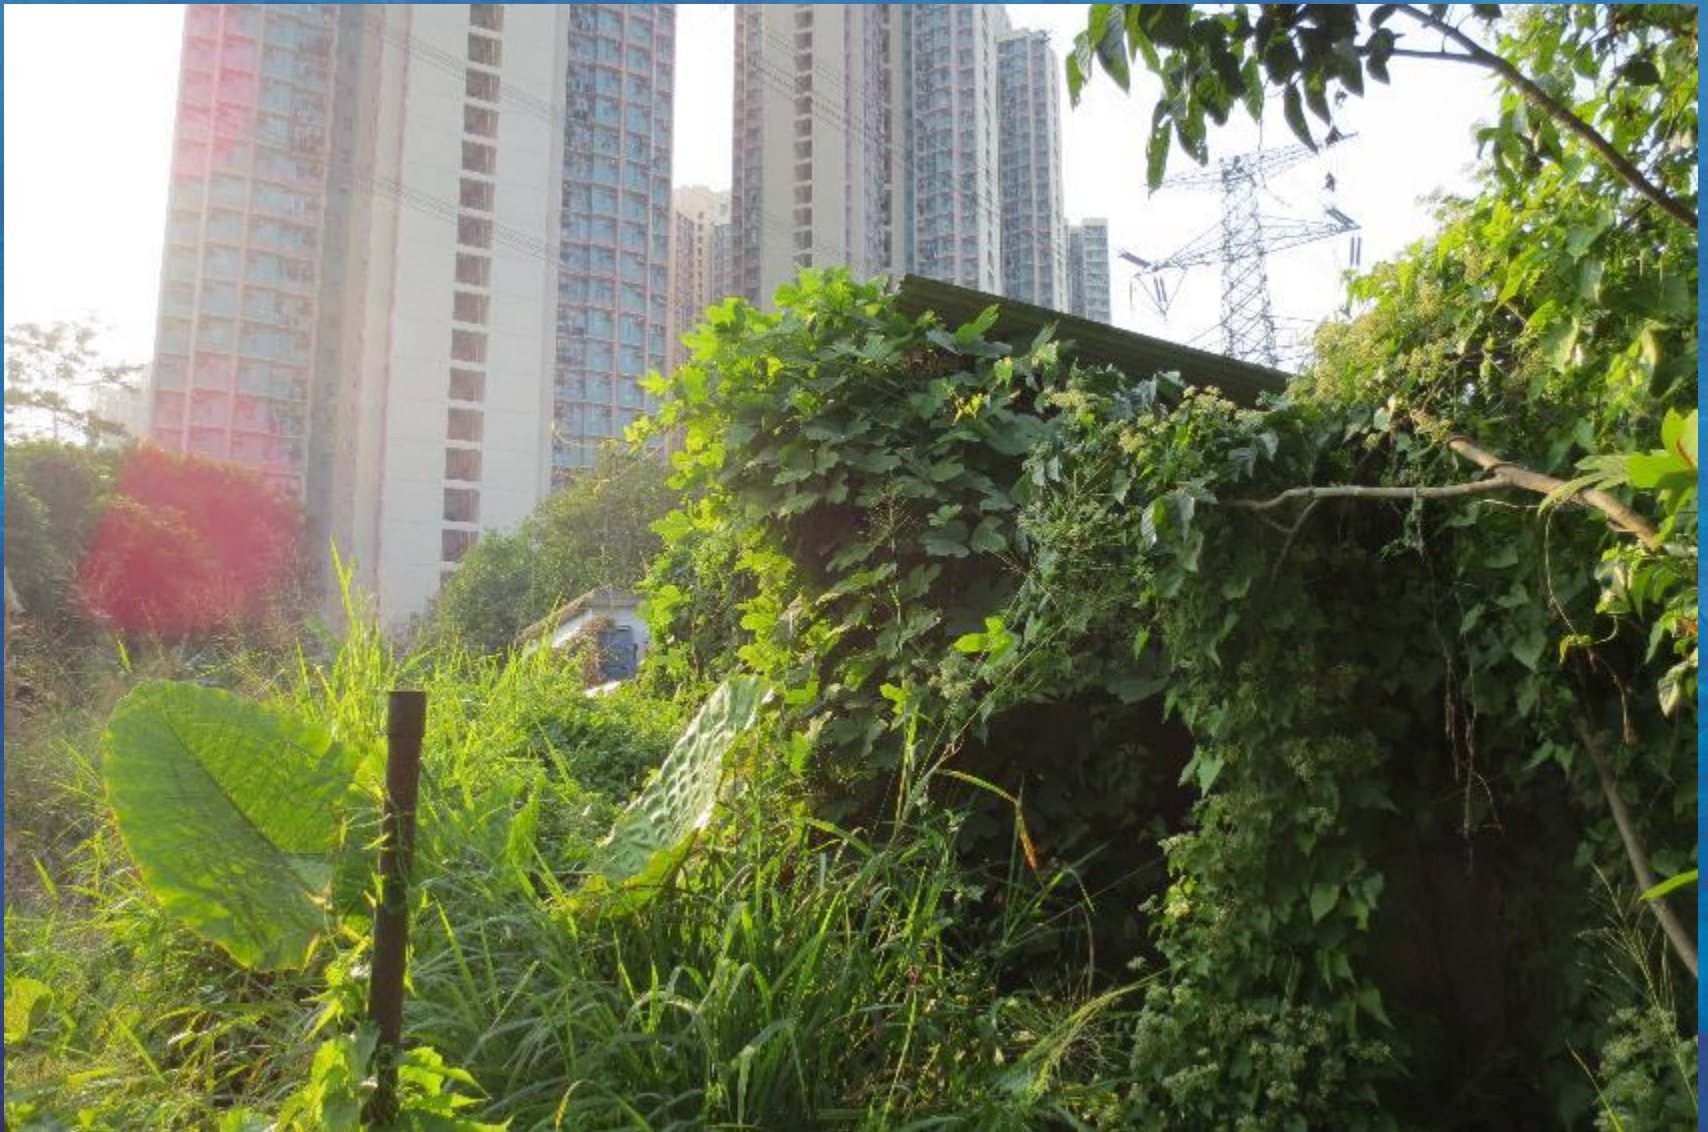

The residents of Fu Tei Estate look down on the slums and see dirty poverty, hopeless despair, lives without future and shoddy structures infested by rats and snakes ... paid by tax dollars.
