

THE SLUM IN THE GREEN SHED

LAM TEI #6

We first visited this location in Lam Tei in 2009, when it was painted orange and housed a different group of refugees. The landlady is now 87 and still signs contracts with her thump print.

Of 65 slum lords and ladies, she is the only decent and honest person. She treats tenants fairly, charging only 1200\$ rent, while providing fridges, TVs, gas stoves and air-conditioners.

This is the only slum where refugees can take a HOT shower as she installed water heaters. When a refugee was denied ISS aid for a year, she incurred a 10,000\$ loss rather than evict him!

IN 2009 IT WAS ORANGE
