

# THE SLUM IN THE RECYCLING PLANT

## PAK SHA TSUEN #1

In 2009 a recycling trader converted this storage space into a refugee slum for ISS-HK. These plywood rooms appear like a human trafficking movie set - a disturbing and worrying sight!

The warehouse provides the external shell. Under the metal roof ISS sanctions and supports 17 rickety plywood boxes to settle homeless refugees. It is a repulsive “**ghetto solution**”.

To his credit this resourceful businessman charges 1200\$ and is supportive of his Nepali, Bangladeshi and Pakistani tenants. ISS bears full responsibility for this outrageous exploitation.
