

THE SLUM LIKE A FAVELA

YUEN LONG #11

With a sweeping view over Yuen Long this favela-like slum is remarkable for its construction over two levels. The slum lord erected rooms on stilts and with staircases to maximize profits.

ISS-HK settled 15 refugees in this dense ghetto with total disregard for their safety and health, let alone comfort. The smallest *rooms* can barely fit a mattress and basic appliances.

Treated as less-than-human, South Asian refugees are marginalized and humiliated in conditions that will soon be exposed to the public beyond the scope of our advocacy work.
