

THE NG KA TSUEN SLUM

This pigsty and chicken shed complex was turned into a refugee slum in 2010, when ISS persuaded the landlord to house clients there.

It is currently home to 22 refugees from Africa, Pakistan and Bangladesh. Evidence was collected that ISS case workers introduced tenants to this greedy landlord. Mr. CZ is proud of his illegal “guesthouse” business, as authorities prohibited the raising of pigs and poultry in the New Territory.
