

# THE SLUM UNDER THE MTR LINE

## HUNG SHUI KIU #5

It is hard to know the purpose of this site. It is not residential. Perhaps it was a temporary lodge for workers constructing the MTR line that runs overhead. Today it is a refugee ghetto!

15 refugees from Sri Lanka and India live in squalid conditions in crumbling buildings, one of which was destroyed by fire last year. Charcoaled ruins didn't deter the landlord from renting it.

The land was recently bought by a company for development. Meanwhile it earns a profit in tax-dollars paid by ISS-HK to settle refugees at an unrealistically low 1200\$ rent allowance.
