

# THE SLUM UNDER THE JACK TREE

## HUNG SHUI KIU #7

Slum Lord Lo is a kingpin with several properties under his *direct* control. We hope never to meet him face to face. After several pig farms closed he moved 15 refugees further away.

The refugees in this slum are rightly afraid of losing their rooms should ISS-HK suddenly stop paying rent. Welfare assistance should not depend on whether criminal practices are exposed.

ISS-HK developed refugee ghettos as long as nobody knew. When caught red handed, they dropped illegal locations and bogus documents to cause refugees further suffering. Why?
