

THE SLUM UNDER THE POWER LINE

CHUNG UK TSUEN #4

More converted animal farms. More outrageous 'homes' in refugee ghettos that no reasonable person would approve for human habitation. The web of ISS deception is colossal.

To escape the heat in another slum, a refugee moved to a shack fitted with an air-conditioner. But these metal huts aren't any better with open air toilets and a large bucket to bathe.

Desperate hardship repeats from slum to slum. ISS settled a new refugee into this ghetto last week, defying the outcry that should stop such cruel and inhuman practices already.
