

THE SLUM WITH COFFIN ROOMS TO KWA WAN #1

Let's play this refugee game: rent a room that is not in a guesthouse, without deposit, without agency commission, not on a rooftop for **maximum 1200\$ a month**. Are you ready?

That's what ISS-HK demands from refugees. The losers will be homeless. The winners ... oh sorry, there are no winners because there are no such rooms even in refugee ghettos.

Who came up with these idiotic rules? Did they consider that refugees will be jailed for 15-22 months for working illegally? Will the Social Welfare Department show us how to play?
