

# THE SLUM WITH RABBITS

## NAI WAI #9

A 75 year old grandmother converted her pig farm into a refugee ghetto. One must wonder how did an old lady, born in 1938, provide the right document for due diligence by ISS-HK.

The leaky building floods in the rain as it was built to raise pigs, not house humans. The 9 refugee tenants complain, but Po Po doesn't have enough money to make urgent repairs.

Rentals are 1400\$ and two months deposits are demanded, as well as 600\$ to install a water heater and 500\$ for an air-con, as if the building had some kind of guesthouse license.
