

# THE SLUM WITH THE FISH TANK

## NAI WAI #10

Six years in the making, this refugee ghetto is operated by the same old lady of the slum with rabbits, with the management assistance of Anna, her domestic helper on special duties.

The rooms cost 1600\$ for destitute refugee. At the back a deluxe section is for residents only and the quality and finish stand in remarkable contrast to what is offered ISS-HK clients.

Refugees have no choice. If they complain about flooding, latrines, insects, rats and snakes, they are warned “If you don’t like it, then leave!” Seven years later one still lives here.
