

THE SLUM WITH THE GOLD CHAIRS

HUNG SHUI KIU #6

For years leading to September 2013, this ghetto was secretly developed by ISS-HK in cooperation with a notorious slum lord (Mr. Lo) associated with several sites in Hung Shui Kiu area.

Irrespective of the triad connections, ISS-HK recklessly settled scores of refugees in this dump in order to prove to the SWD they were doing a good job and refugees were not homeless.

Under threat of investigation, ISS-HK stopped rent payments during the summer and 15+ refugees found themselves in the street with no support, alternative housing or compassion.
