

# THE SLUM WITH A PRICE LIST

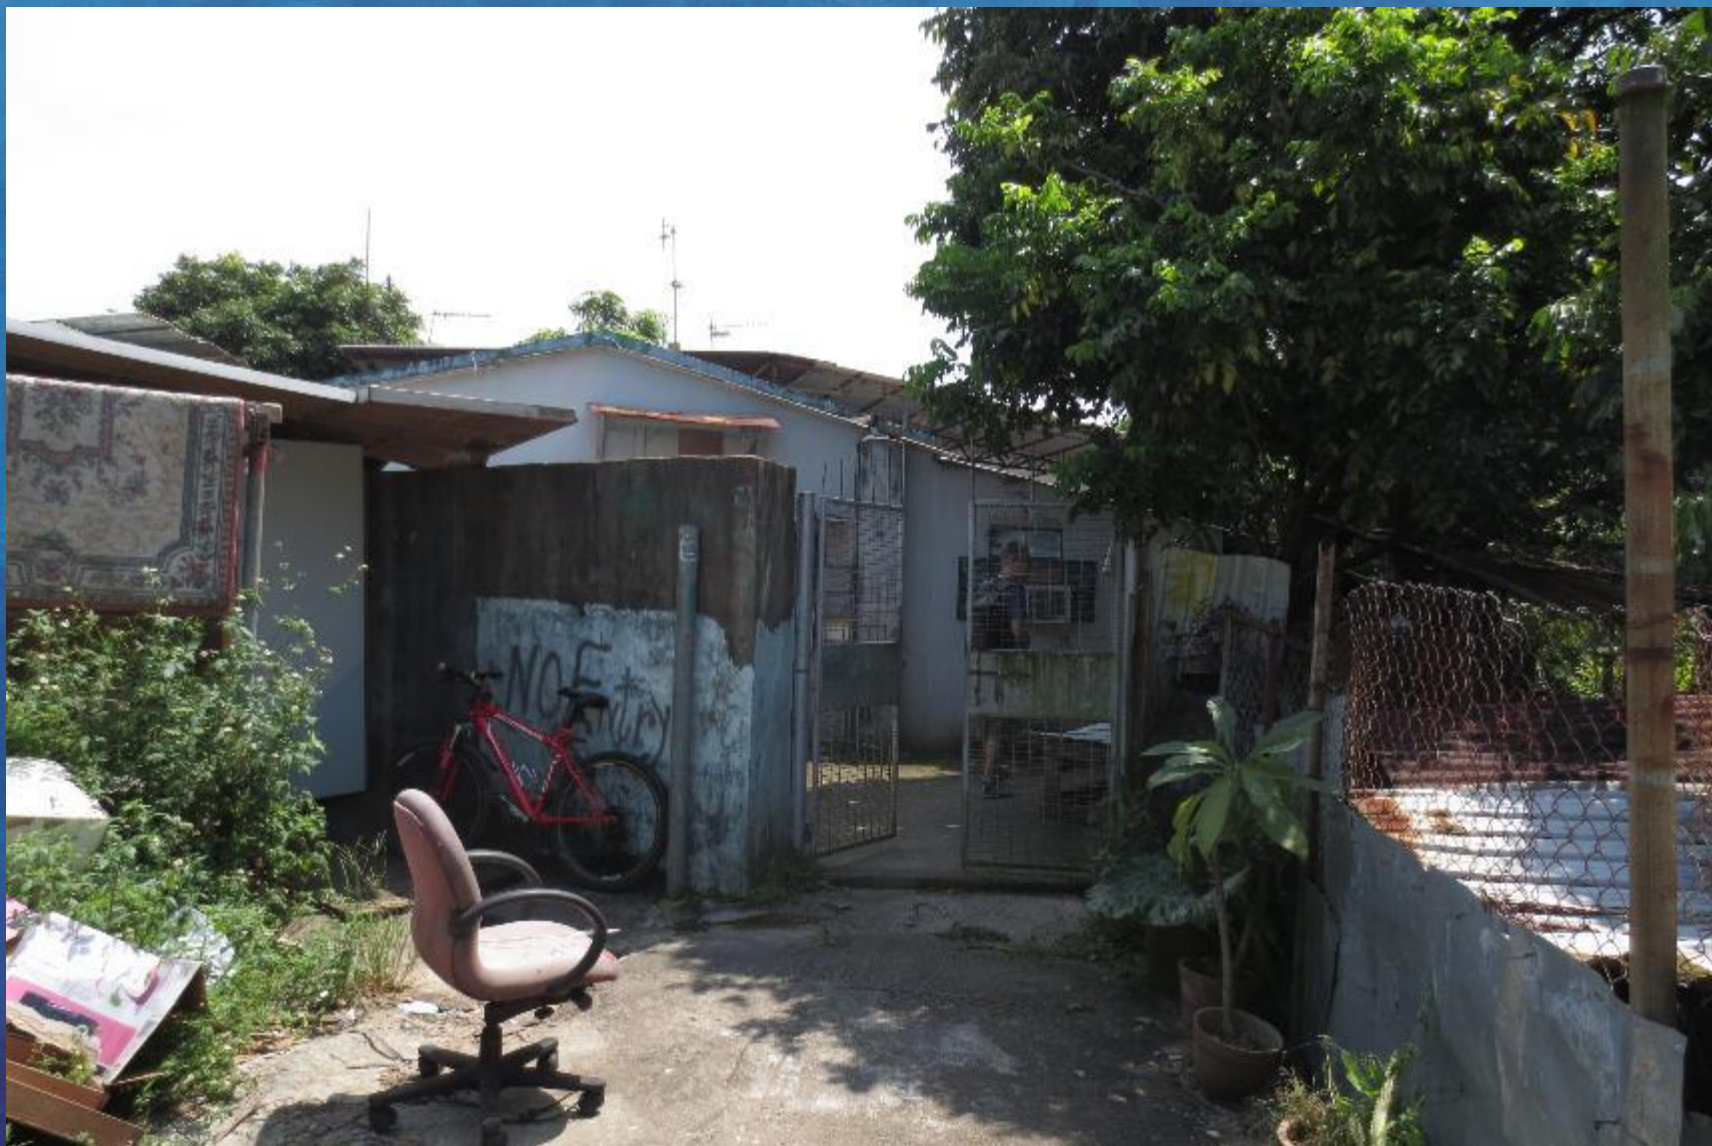

## PAT HEUNG #3

The Indonesian Slum Queen is notorious for the Slum in the Farmhouse. She displays an inordinate desire to exploit refugees far beyond anything acceptable by any reasonable person.

Her 15 tenants' destitution is of no concern to her. She threatens them to pay up or move out, **"Money! Money! Pay or go out!"**

The living conditions were improved by refugees who reside here for 4 years. When they built an outdoor kitchen bench, the Slum Queen seized the opportunity to charge an extra 50\$ per person!

ISS-HK assures refugee needs are met on a case-by-case basis. We query the results of assessments done since these residents complained to case workers over the years. Nothing changed.
