

THE SLUM WITH TWO ELEPHANTS

HUNG SHUI KIU #4

This abandoned pig farm isn't supposed to be inhabited. Refugees directed us to this slum where we found the rooms of four ISS-HK clients inside ramshackle, improvised shacks.

This landlord didn't bother to erect a proper gate, clear the weeds or construct durable structures. Instead he expected refugees to pay rent, move in and construct their own huts.

It is hard to believe that ISS-HK approved this location. We can be certain they never brought SWD inspectors here. To this end we will make sure the government is duly notified.

SAFEGUARDING REFUGEE RIGHTS

Exposing refugee ghettos is comparable to fighting poachers who desecrate elephants for their tusks.

Our advocacy is powerfully motivated by witnessing the suffering in ISS-HK slums.

We cannot but act on this knowledge so as not to be acquiescent to and complicit with the crimes we witness.

How do you feel about this?
